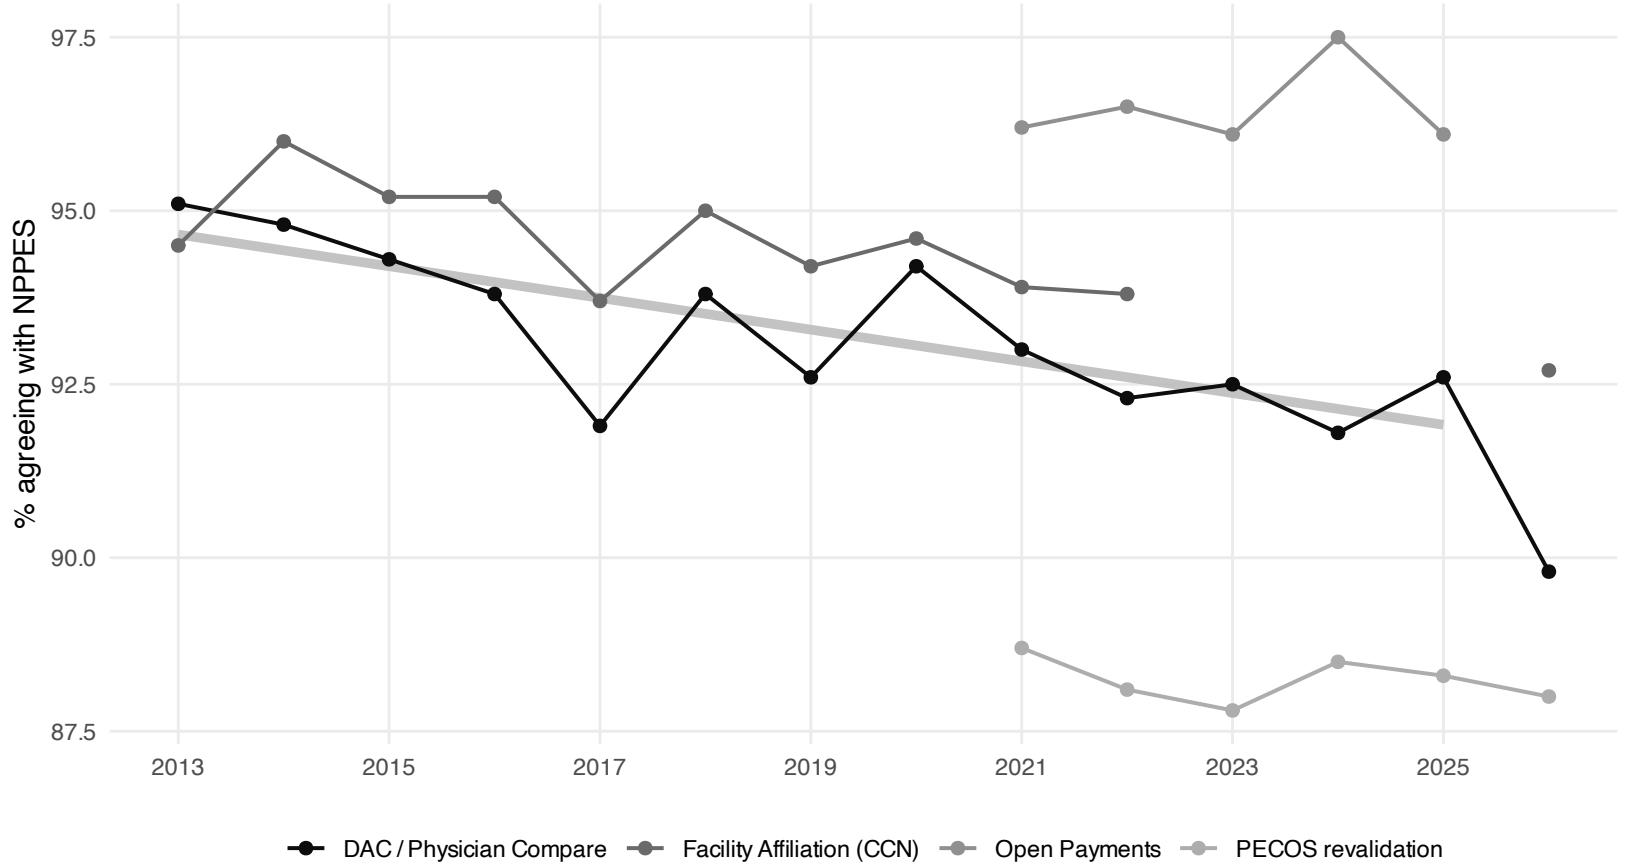
Agreement erodes slowly, and only where the series is long enough to tell

Same-year basis against NPPES. DAC falls 0.23 points a year over 2013-2025 (p = 0.0014; fitted line), so the 2026 drop continues a trend rather than breaking a flat one. Open Payments and PECOS are flat, but each has only five years to say so with.



Parsed from §3 of TECHNICAL_APPENDIX_STATE_SOURCE_AUDIT_2026-11-03.md; trend by weighted least squares, weights = n comparable
